DETAILED ACTION

The Preliminary Amendment

Receipt is acknowledged of the preliminary amendment filed on April 5, 2007. The amendment has been placed of record in the file.

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. § 119(a)-(d), which papers have been placed of record in the file.

The Information Disclosure Statements

The prior art cited in the information disclosure statements filed on January 29, 2007 and February 1, 2008.

The Drawings

The drawings are objected to as being informal. Formal drawings in compliance with 37 CFR § 1.84 are required. For example, note the use of the German language under “Figure:2”, the speckles in Figure 3 and the fades lines in Figure 4.

Corrected drawing sheets in compliance with 37 CFR § 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as “amended.” If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either “Replacement Sheet” or “New Sheet” pursuant to 37 CFR § 1.121(d). If the changes are not accepted by

Art Unit: 2877

the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Allowable Subject Matter

Claims 13-24 are allowed over the prior art of record.

As to independent claim 1, the prior art of record, taken alone or in combination, fails to disclose or render obvious a method using fluorescence microscopy for image evaluation comprising the steps of employing temporally and/or spectrally variable dyes and/or dye combinations for recording of the reference spectra and demixing the recorded reference spectra for image evaluation, in combination with the rest of the limitations of the claim.

Conclusion

This application is in condition for allowance except for the formal matters noted above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
